Hobbs, New Mexico 88240

Gentlemen:

Our records indicate that you were notified by letters from this office dated November 16, 1982, that your State S Well No. 3 in Unit F of Section 32, T-22-S, R-38-E, Blinbry Oil & Gas Pool, and State C Tr. 12 Well No. 6-Y in Unit C of Section 16, T-21-S, R-37-E, Tubb Oil & Gas Pool, were being reclassified as gas wells in their respective pools and that the oil allowables were being cancelled effective January 1, 1983. We also pointed out that it would be necessary for you to comply with the rules governing gas wells in these pools before gas allowables could be assigned.

Although to date we have heard nothing from you concerning compliance with the gas pool rules, production is still being reported on Form C-115, even though there are no assigned allowables.

You are now directed to shut in these zones in the wells in question until gas allowables have been assigned.

Yours very truly,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District 1
