17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was temporarily abandoned 2/1/71 when the rod string parted. At present all equipment is still in place.

Although the well is no longer economically productive, we should like to hold it for possible future secondary recovery operations.

Production from this well was commingled with that from well no. 1-K, Penrose Skelly Grayburg.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
