Re: Amerada Petroleum Corporation's application
for multiple completion on its D"C" No. 1,
Lea County, New Mexico.

Gentlemen:

By administrative order MC 1253 dated November 26, 1962 the Commission approved Amerada Petroleum Corporation's application for multiple completion on its State D"C" No. 1 located in Sec.19-T21S-R37E, Lea County, New Mexico.

Subject well has now been drilled and completed. Copies of the revised schematic diagrams and log of well are attached.

Yours very truly,

D. C. Capps
District Superintendent

1. The first step in the process of identifying a potential threat is to determine the nature of the threat. This can be done by reviewing the threat's history, its current status, and its potential impact on the organization.

1. The first step is to identify the variables involved in the problem. In this case, the variables are the number of hours worked (H) and the number of units produced (U).
