RE: Penrose Production Company
L. G. Warlick No. 1
Section 19, T21S, R37E,
Lea County, New Mexico

Gentlemen:

Attached please find Application for Multiple Completion, diagrammatic sketch of multiple completion, plat, and marked electrical log, all submitted pursuant to your requirements for permission to dually complete our L. G. Warlick Well No. 1 in the Penrose-Skelly and Blinebry oil pay zones.

The subject well was originally drilled as the Coats and Jackson - Warlick No. 1 in September, 1950. It was plugged and abandoned at that time. The well was re-entered by Makin Drilling Company in December, 1954 and completed as a Blinebry oil single. It has been flowing from the Blinebry since this completion.

Penrose Production Company commenced operating the well in 1960.

We respectfully request administrative approval of the proposed dual completion of the subject well. Waivers from offset operators are not provided herewith. However, all offset operators listed on the Multiple Completion Application attached hereto have been sent a copy of the application on January 28, 1965.

Very truly yours,

PENROSE PRODUCTION COMPANY

Harold S. Winston
