## INSTRUCTIONS

This form shall be executed and filed in QUADRUPLICATE with the District Office of the Oil Conservation Commission, covering each unit from which oil or gas is produced. A separate certificate shall be filed for each transporter authorized to transport oil or gas from a unit. After said certificate has been approved by the Oil Conservation Commission, one copy shall be forwarded to the transporter, one copy returned to the producer, and two copies retained by the Oil Conservation Commission.

A new certificate shall be filed to cover each change in operating ownership and each change in the transporter, except that in the case of a temporary change in the transporter involving less than the allowable production for one proration period, the operator shall in lieu of filing a new certificate notify the Oil Conservation Commission District Office, and the transporter authorized by certificate on file with the Commission, by letter of the estimated amount of oil or gas to be moved by the transporter temporarily moving oil or gas from the unit and the name of such temporary transporter and a copy of such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move any more oil or gas than the estimated amount shown in said notice.

This certificate when properly executed and approved by the Oil Conservation Commission shall constitute a permit for pipe line connection and authorization to transport oil and gas from the property named therein and shall remain in full force and effect until

- (a) Operating ownership changes
- (a) The transporter is changed or
- (c) The permit is cancelled by the Commission.

If any of the rules and regulations of the Oil Conservation Commission have not been complied with at the same time this report is filed, explain fully under the heading "REMARKS."

In all cases where this certificate is filed to cover a change in operating ownership or a change in the transporter designated to move oil or gas, show under "REMARKS" the previous owner or operator and the transporter previously authorized to transport oil or gas.

A separate report shall be filed to cover each producing unit as designated by the Oil Conservation Commission.

Re: Commission's Administrative  
Order No. DC-172 dated  
12-9-54

Gentlemen:

This is to inform the Commission that the Makin Drilling Company Warlick No. 1 well in the NE/NE, Section 19, T21S, R37E, Lea County, New Mexico was tested for dual completion as allowed in your order DC-172. It was found that the lower formation, which is the Tubb zone was non-productive; therefore the well is now completed and producing from the Blinbry gas zone only. Thank you for your consideration in seeing fit to grant the order.

This letter is only a communication to the Commission, which informs it that the well is not a dual completion and that all necessary applications have been filed and approved for the completion and production of a single Blinbry gas well.

Yours very truly,

MAKIN DRILLING COMPANY

Re: Commission's Administrative  
Order No. DC-175 dated  
12-9-54

Gentlemen:

This is to inform the Commission that the Makin Drilling Company Warlick No. 1 well in the NE 1/4, Section 19, T21S, R37E, Lea County, New Mexico was tested for dual completion as allowed in your order DC-175. It was found that the lower formation, which is the Tubb zone was non-productive; therefore the well is now completed and producing from the Blinberry gas zone only. Thank you for your consideration in seeing fit to grant the order.

This letter is only a communication to the Commission, which informs it that the well is not a dual completion and that all necessary applications have been filed and approved for the completion and production of a single Blinberry gas well.

Yours very truly,

MAKIN DRILLING COMPANY
