New Mexico Oil Conservation Commission

Page 2

6. That the manner and method of the proposed dual completion is mechanically feasible and practical.
7. That by copy of this letter of application, all offset operators are notified of the proposed dual completion.
8. This well is outside the area limits of gas fields presently specified by the Commission. In the event that a commercial gas well or wells are obtained, it will be requested that the limits of the Elinebry and/or Tubb gas pools be extended to include this well.

Therefore, Haidin Drilling Company requests that the Oil Conservation Commission grant permission to the applicant to dually complete the subject well as proposed in this application.

Respectfully submitted,

J. W. Adams
Petroleum Engineer
