* Should waivers from all offset operators not accompany this application, the New Mexico Oil Conservation Commission will hold this application for a period of twenty (20) days from the date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest or request for hearing is received at the Santa Fe office, the application will then be processed.

NOTE: If the proposed multiple completion will result in an additional well producing gas or gas-standard production unit in either or both of the producing zones, three separate applications for approval of the same shall be filed along with this application.
