PACKER SETTING AFFIDAVIT
(Dual Completions)

STATE OF TEXAS

County of ECTOR

Joe H. Campbell, being first sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by J. W. PEERY in the capacity of Petroleum Engineer and as such is its authorized agent.

That on August 13th, 1958, he personally supervised the setting of a 45-26 Baker Model D J. W. Peery's
(Make and Type of Packer) (Operator)

HARDY Well No. 2, located in Unit
(lease)
Letter P, Section 19, Township 21-S Range 38-E, NMPM,
County, New Mexico.

That said packer was set at a submergence depth of 6531 feet,
said depth measurement having been furnished by Lane Wells.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from above the packer. That this packer was properly set and that it has properly and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented the commingling of fluids from the packer.

J. W. PEERY
