Mr. L. O. Storm
209 Turner Drive
Hobbs, New Mexico

Dear Mr. Storm:

The recently submitted gas-oil ratio test for the J. R. Cone Anderson No. 2 located in Unit I of Section 21, T-21-S, R-37-E, Elinebry Pool, indicates that it should be reclassified as a gas well. Therefore, the well will be removed from the Oil Proration Schedule effective December 1, 1965.

Please advise this office as to whether or not Skelly Oil Co. will continue to take the gas from this well in order that we may assign a Blinebry gas allowable.

Yours very truly,

OIL CONSERVATION COMMISSION

Joe D. Ramey
Supervisor, District 1
