

As per phone call
w/ Ed Markin on 11-6-98
at 8:00 A.M. We discussed
the status of this well
from Gas to oil.

In 1995, 1996, & 1997
this well should have
been in the Blinbry oil &
Gas (Gas) pool. ~~The~~ Engard
Share the Blinbry Oil &
Gas (Oil) pool. For those
years the data base was
not changed. Now the
Gas & Oil production test
comes out to be oil.
Ed said do not change
unless it affects Nelda's
work.
