Re: Downhole Commingle -- DHC-700
M.E. Wantz #11-L Sec. 21, T21S, R37E
Blinebry Oil & Gas and Drinkard Pools

Gentlemen:

The above-referenced well has been downhole commingled in the Blinebry prorated gas and the Drinkard Pools according to Division Order DHC-700.

It is the operator's responsibility to make certain the gas transporter is properly reporting the gas production on their Monthly Transporter's Report, Form C-111, so the gas sales will be picked up for gas allowable purposes.

The percentage allocations set out by DHC-700 are:

Blinebry	oil	0%	gas	84%
Drinkard	oil	100%	gas	16%

Very truly yours,

OIL CONSERVATION DIVISION
