Texas-New Mexico Pipe Line Co.
Midland, Texas

Gentlemen:

Chapter 72 of the Laws of 1935 of the State of New Mexico, as amended, and revised by Chapter 168, reads as follows:

"Section 15 (a) The sale or purchase or acquisition, or the transportation, refining, processing, or handling in any other way, of crude petroleum oil in whole or in part produced in excess of the amount allowed . . . by any rule, regulation or order of the Commission made thereunder, is hereby prohibited, any such oil or commodity is hereby referred to as "illegal oil" . . .

"Section 16 (a) The Commission is specifically authorized and directed to make such rules, regulations and orders, and may provide for such certificates of clearance or tenders, as may be necessary to make effective the prohibitions contained in Section 15.

"Section 24 (b) Any person who knowingly and willfully violates any provision of this act or any rule, regulation or order of the Commission made hereunder shall, in the event a penalty for such violation is not otherwise provided for herein be subject to a penalty of not to exceed One Thousand (\$1,000.00) Dollars a day for each and every day of such violation . . ."

Our records show that the Continental Oil Company, Mary E. Wanta Well No. 3-D was completed January 18, 1948, and during the year 1948, 17,059 barrels of crude oil was received by you from this well and is now being received. To this date we have not received a well record on this well from the Continental Oil Company as required by the regulations of the Commission and have not issued the usual Certificate of Compliance and Authorization to Transport Oil also required by the regulations of the Commission before any transporter is authorized to accept oil.

We do not wish to make an issue of this particular case, and are sure it can be cleared up in short order, but we do feel that it is

the 1990s, the number of people in the world who are illiterate has increased from 1.2 billion to 1.5 billion. The number of illiterate people in the world is projected to reach 1.7 billion by the year 2015. The number of illiterate people in the world is projected to reach 1.7 billion by the year 2015.

1. The first step is to identify the problem. This involves understanding the current situation and what needs to be changed.

[illegible][illegible][illegible]

1. The first of these is the fact that the United States has a large and growing population of people who are not citizens of the United States. This is a result of the large number of people who have been admitted to the United States as permanent residents, and the fact that many of these people have been born in other countries. This is a problem for the United States because it means that there are a large number of people who are not subject to the same laws and regulations as citizens of the United States. This is a problem for the United States because it means that there are a large number of people who are not subject to the same laws and regulations as citizens of the United States.

1. The first limitation was the small number of subjects in the study. The study was conducted with a small number of subjects, which may have limited the generalizability of the findings.
