Dear Sir:

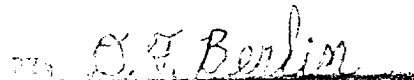

Gulf Oil Corporation requests your administrative approval for an amendment to NSP 979, for a 120 acre non standard proration unit in the Blinebry Oil & Gas Pool, consisting of the NE/4 NE/4 and the S/2 of the NE/4, section 22, 21-S, 37-E, Lea County, New Mexico, to be dedicated simultaneously to our Eubank No. 2, located 660' FN & EL, Eubank No. 3, located 1980' FNL & 2080' FEL and Eubank No. 4, located 1980' FNL & 660' FEL, all in section 22, 21-S, 37-E.

In support of this application the following facts are submitted:

1. NSP 979 authorized the simultaneous dedication of the 120 acre non standard unit to the No. 2 and 4 wells, as permitted by Rule 26 (e) of the Blinebry Oil & Gas Pool Rules.
2. The Blinebry zone in Eubank No. 3 was recently acidized and tested at 1181 MCFPD, after being carried as closed in, necessitating this request.
3. There are no other wells producing from the Blinebry zone in this 120 acre non standard proration unit.
4. The attached plat shows the 120 acre unit and wells outlined.
5. All offset operators have been furnished a copy of this application.

Your early consideration will be appreciated.

Yours truly,

C. D. BORLAND
