Form C-103

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission. Indicate nature of report by checking below.

and approval of the proposed plan was (RESCREE)) obtain	ed. (Ci	oss out	incorr	ect word	is.)		
DETAILED ACCOUNT OF	WORK	DONE	AND	RESUL	TS OB	AINED		
DETAILED ACCOUNT OF		20112						

After waiting forty-eight hours, the casing was tested with 1200# pressure applied for 30 minutes. The plug was drilled and the casing and cement were tested with 1200# pressure applied for 30 minutes. Both tests were 0K, and after approval of Mr. Yarbrough, State Oil & Gas Inspector, preparations are being made to complete the well.

Top of cement back of 7" csg @ 3100' per temperature survey.
