Re: Northeast Drinkard Unit  
Revision of Special Rules by R-8539-A & R-8541-B

Gentlemen:

The revised special pool rules promulgated by the above-referenced orders allows for the removal of the gas wells from the Tubb and Blinbry Prorated Gas Pools. Supplements have been issued authorizing the removal of all Northeast Drinkard wells from the gas proration schedule effective November 1, 1990. These wells will be added to the unit wells in the Oil Proration schedule effective November 1, 1990.

In order to have a correct acreage dedication plat on file for these wells, please file a 40-acre plat for the following wells:

Northeast Drinkard Unit	#305-R	3-21-37
