

OIL CONSERVATION COMMISSION

HOBBS, NEW MEXICO 88240

October 30, 1969

Shell Oil Company  
P. O. Box 1509  
Midland, Texas 79701

Gentlemen:

On July 17, 1969 this office approved Form C-104 indicating that your Turner No. 6 located in Unit M of Section 22, T-21-S, R-37-E had been reclassified from oil to gas in the Blinebry Pool, and that both El Paso Natural Gas Co. and Skelly Oil Co. had gas connections. We assigned a gas allowable in the Blinebry Gas Pool effective July 1, 1969 on the basis of this information, which was confirmed in a conversation with your office. We have this date been advised that the well is not connected to El Paso, and that apparently it is not producing.

Please advise as to the status of this well. If it is shut in, please submit Form C-103 so indicating; if there is a gas connection, please submit a revised Form C-104 indicating the correct transporter and the connection date.

Yours very truly,

OIL CONSERVATION COMMISSION

Joe D. Ramey  
Supervisor, District 1
