Tubb Oil & Gas Pool

Dear Harold:

As I am sure you are aware, the wells in the Tubb Oil and Gas Pool are reclassified from time to time according to the gas/oil ratio test. The above-referenced well was an oil well and carried in the oil proration schedule through August 1985. In September 1985 the well should have been reclassified to a gas well in the Tubb Oil & Gas Pool and a gas supplement issued.

However, due to an oversight in this office a gas supplement was never issued thus causing the well to appear as overproduced on casinghead gas. We request that the gas allowable be made retroactive to September 1, 1985 for the above-referenced well.

If you have a question or feel this cannot be done, please let me know.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
