Re: Reclassification of Well -- Eumont Pool  
State H #3-H Sec. 13, T21S, R35E

Gentlemen:

Due to the recently submitted gas/oil ratio test the above-referenced well will be reclassified as a gas well in the Eumont Pool effective September 1, 1989, and the oil allowable cancelled that date.

If for some reason you feel this test does not reflect the proper classification of this well, please submit another test for our consideration by July 26, 1989.

If well is to be reclassified to gas please file a revised Form C-102, acreage dedication plat, outlining acreage to be dedicated to this gas well. It is noted that this well is located on the 320-acre proration unit dedicated to your #4-I. This well may be added to that proration unit but it will be necessary for you to request simultaneous dedication of acreage to #3-H and #4-I from our Santa Fe office.

Also, gas well gas must be separately metered and if the transporter changes due to reclassification, please file C-104 so indicating.

If you have questions concerning the above, please contact Evelyn Downs at (505) 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
