DUPLICATE

Mr. F.J. Vesely
State Oil & Gas Inspector
Carlsbad, New Mexico.

Dear Sir:-

I wish to obtain permission to save bradenhead gas on the North Bell Well/1, which is located in the SE/4 of SE/4 of Section 6-21-36. This is for the purpose of operating the lease.

We propose to run 25 sac cement on the 5 $\frac{1}{2}$ " casing.

Please advise if this procedure is alright.

Yours truly,

By C.C. Cummings
