Re: Eula Alexander #1 Well  
Sec. 7, T-21S, R-37E

Dear Sir:

In reply to your letter of April 1st and with reference to the above, please be advised that this well was drilled by The Texas Company about 1940 and was later sold to Clay Brothers. They, in turn, sold it to the Bridgeport Supply Company, and we purchased it from Bridgeport March 3rd, 1945.

The well has been shut-in on account of litigation, which has recently been settled. It has been tested and makes about fifty barrels per day at the present time.

Yours very truly,

E. G. Rodman
