Gentlemen:

Hawk B-1 No. 6, Unit Letter N, Sec. 9, T-21S, R-37E

The above referenced well has been shut-in since testing during February, 1983. Wellhead pressure has now built up to a dangerous level, and we are requesting another testing allowable so that the well can be bled off to the battery to relieve the pressure.

Yours very truly,

A handwritten signature in cursive script, appearing to read "Mark K. Mosley".
