

NEW MEXICO STATE LAND OFFICE
OFFICE OF THE STATE GEOLOGIST
 SANTA FE, NEW MEXICO

MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas inspector if possible.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON DEEPENING WELL	
REPORT ON RESULT OF SHOOTING WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF WATER SHUT-OFF	X	REPORT ON REPAIRING WELL	
REPORT ON RESULT OF ABANDONMENT OF WELL			

Hobbs, New Mex Feb 12 1935

Mr **F J Vesely** State ~~Geologist~~ **Oil & Gas Inspector**
 Santa Fe, N. Mex.

Following is a report on the work done and the results obtained under the heading noted above at the **Shell Petroleum Corporation** State **B** Well No. **1** in the **N W Corner** of Sec. **29**, T. **21-S**, R. **36-E** N. M. P. M., **Eunice** Oil Field, _____ County.

The dates of this work were as follows: **7" Casing cemented on 2-8-35**

Notice of intention to do the work was (~~correct~~) submitted on Form SG **103** on **Feb 8** 19**35**, and approval of the proposed plan was (~~was not~~) obtained. (Cross out incorrect words.)

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

The casing was cemented on shoulder after obtaining oil and gas on drill stem test from rat hole below shoulder. Because of presence of porosity below shoulder pressure tests and bailing tests of W S O are impossible. Special permission was obtained to eliminate tests after drilling plug. Casing and well head connections were tested before drilling plug with 1100# pressure retained for 30 minutes. Test was satisfactory.

Subscribed and sworn to before me this

27 day of **Jan**, 19**36**

Patricia Mahoney
 Notary Public

I hereby swear or affirm that the information given above is true and correct.

Name **C. J. Schuck**

THEORY OF THE EARTH

CHAPTER I

OF THE ORIGIN AND DEVELOPMENT OF THE EARTH

The theory of the origin and development of the earth is a subject of great importance and interest. It is one of the most fundamental questions in geology, and has been the subject of much speculation and controversy. The question of the origin of the earth is a question of the first importance, and has been the subject of much speculation and controversy. The question of the development of the earth is a question of the second importance, and has been the subject of much speculation and controversy. The question of the origin of the earth is a question of the first importance, and has been the subject of much speculation and controversy. The question of the development of the earth is a question of the second importance, and has been the subject of much speculation and controversy.
