

NEW MEXICO STATE LAND OFFICE
OFFICE OF THE STATE GEOLOGIST
 SANTA FE, NEW MEXICO

MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas inspector if possible.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON DEEPENING WELL	
REPORT ON RESULT OF SHOOTING WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF WATER SHUT-OFF	X	REPORT ON REPAIRING WELL	
REPORT ON RESULT OF ABANDONMENT OF WELL

THE GEOLOGICAL SURVEY OF THE UNITED STATES

WASHINGTON, D. C.

1900

REPORT ON THE GEOLOGICAL SURVEY OF THE UNITED STATES

The following report was prepared by the Geological Survey of the United States, under the direction of the Chief of the Survey, and is published by the Government Printing Office, Washington, D. C., in accordance with the provisions of the Act of March 3, 1879, relating to the publication of the reports of the Geological Survey of the United States.

The report is divided into two parts, the first of which contains the general results of the survey, and the second of which contains the detailed description of the geological formations of the country.

The first part of the report is divided into three sections, the first of which contains the general results of the survey, the second of which contains the detailed description of the geological formations of the country, and the third of which contains the detailed description of the geological formations of the country.

The second part of the report is divided into two sections, the first of which contains the detailed description of the geological formations of the country, and the second of which contains the detailed description of the geological formations of the country.
