

March 13, 1964

Mr. A. L. Porter, Jr.
Secretary-Director
New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Subject: Amendment for Case
No. 2906, Order No. R-2577

Dear Sir,

By Order of the Commission on the 3rd. day of October, 1963, The Western Oil Fields, Inc., was after hearing given approval to drill and complete as a quadruple completion the Gulf Hill No. 4 Well, located in Unit S, Section 4, Township 21 South, Range 37 East, Lea County, New Mexico.

In the process of completing the well it was found that:

1. The Tubb Gas or Oil Zone was not productive.
2. The Glorietta was not productive.
3. The Penrose-Skelly was not productive.

In accordance with provisions of Statewide Rule 112, The Western Oil Fields, Inc., now respectfully request that this amended application be considered.

The well is to be produced as a triple completion from the Wantz Abo Oil, Drinkard Oil and Blinebry Oil.

I have filed with this notice an amended "Application for Multiple Completion", a diagramatic sketch of the actual well completion and a plat of the acreage.

All offset operators are being furnished a copy of this information.

Sincerely yours,

Paul G. White

Paul G. White
Division Engineer
Western Oil Fields, Inc.
