PACKER-SETTING AFFIDAVIT
(Dual Completions)

STATE OF New Mexico)
County of Lea) ss

M. E. Frasier, being first duly sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by Pan American Petroleum Corp. in the capacity of Field Foreman and as such is its authorized agent.

That on March 15, 1963, he personally supervised the setting of a Otis Type 213A912 in Pan American Petroleum Corporation's
(Make and Type of Packer) (Operator)
Southland Royalty Co. "A" Well No. 8, located in Unit
(lease)
Letter 0, Section 4, Township 21S, Range 37E, NMPM,
Lea County, New Mexico.

That said packer was set at a subsurface depth of 6079 feet, said depth measurement having been furnished by Ram Guns, Inc.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.
