Re: Recompletion
Eunice Com #2 (formerly Graham State (NCT-1) #2)
Unit L, Sec. 19, T21S, E37E

Gentlemen:

We have approved your intention to recomplete the above-referenced well from the Penrose Skelly Grayburg Pool to the Eumont Pool as a proposed gas well. The location, 1980/S & 560/W, is non-standard for a Eumont gas well and will require approval from our Santa Fe office prior to producing the well.

Also, please submit an acreage dedication plat, Form C-102, for the proposed Eumont completion.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
