Re: W.A. Ramsay NCT-B #3-A  
Section 25, T21S, R36E

Gentlemen:

It is noted that you recently squeezed the Paddock zone in the above well and recompleted in the Drinkard. You indicate the well is currently completed as a Blinebry and Drinkard dual with a packer set at 6513 feet.

It will be necessary for you to make application for a Blinebry and Drinkard multiple completion.

Also, you will need to file Form C-105 Well Recompletion Report, and Form C-104 for the Drinkard in order that an allowable can be assigned.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
