Santa Fe, New Mexico

Gentlemen:

Re: Application of Macdonald Oil  
Corp. for approval to dual  
complete (conventional) its  
Gulf Mattern "A" 1 in the Paddock  
and Penrose Skelly Oil Pools, Lea  
County, N.M.

Herewith is attached an application for administrative approval of a dual oil (conventional) completion for Macdonald Oil Corporation's Gulf Mattern "A" well No. 1. This well is located 330' from east and 1650' from the south of section 24 T-21S R-36-E Lea County, New Mexico. It is proposed to dually complete the present Paddock well in the Penrose-Skelly Grayburg zone, and produce the well thru parallel strings of 2 3/8" tubing in 7" casing.

Attached are Application for Dual Completion, lease plat and diagrammatic sketch of proposed dual completion.

Administrative approval is being requested since there are a number of completions of this type in the field.

Very truly yours,

MACDONALD OIL CORPORATION

James B. McPeters
