Re: Final Approval of Wilson "G"
Well No. 1, Unit T, Section 2
Township 21 South, Range 34 East
and Wilson "P" Well No. 1, Unit Q
Section 3, Township 21 South,
Range 34 East

Gentlemen:

Recently an inspection was made of the above captioned locations, and it was found that the battery locations and burn pits for each well had not been filled in or properly leveled. Since each of the above captioned wells were one well leases, this work must be done before final approval can be given on the C-103's indicating the work done on plugging these wells.

Please notify this office when the above work has been done and another inspection will be made. If the locations are found to be in accordance with the Commission Rules, Forms C-103 will be processed without further delay.

Very truly yours,

OIL CONSERVATION COMMISSION

Leslie A. Clements
Oil & Gas Inspector
