New Mexico Oil Conservation Commission P. O. Box 2088 Santa Fe, New Mexico 87501

Attn: Mr. A. L. Porter, Jr.

Re: Non-standard Gas Proration Unit Roy Barton No. 4 Sec. 23, T-21S, R-37E Lea County, New Mexico

Atlantic Richfield respectfully requests administrative approval under the provisions of Order No. R-1670, Rule 29, for a 40-acre non-standard Blinebry Gas proration unit for the Roy Barton No. 4 well, located 1750' FNL and 1980' FEL, Sec. 23, T-21S, R-37E, in Lea County, New Mexico. The proposed proration unit will comprise the SW/4, NE/4 of Sec. 23, as shown on the attached plat.

The Roy Barton No. 4 is currently classified as an oil well in the Blinebry Oil Pool. Effective January 1, 1973, it will be reclassified under R-1670, Rules 27 and 28, to Blinebry Gas, because of a high gas-oil ratio. The well is awaiting assignment of an allowable.

Copies of this application have been submitted to the offset operators listed below.

Very truly yours,

J. R. R. K. Tenhing - 49,112
