General: This form is designed for subbuilding a complete and correct well completion report and log on all types of lands and leases to either a Federal agency or a State agency, pursuant to applicable Federal and/or State laws and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office. See instructions on items 22 and 24, and 33, below regarding separate reports for separate completions.

If not filed prior to the time this summary record is submitted, copies of all currently available logs (drillers', geologists', sample and core analysis, all types electric, etc.), formations, and directional surveys, should be attached hereto, to the extent required by applicable Federal and/or State laws and regulations. All attachments should be listed on this form, see item 35.

should be made on this form, see instructions on page 4. If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

07-1 Section 689B(b) requires that you provide:
 07-2
 07-3 (c) Indicate which elevation is used as reference (where not otherwise shown) for depth measurements given in other spaces on this form and in any attachments.
 07-4 Itemization is 22 and 23; If this well is completed for separate production from more than one interval zone (multiple completion), so state in item 22, and in item 23 show the producing
 07-5 interval(s); or interval(s), top(s), bottom(s) and name(s) (if any) for only the interval reported in item 53. Submit a separate report (page) on this form, adequately identified,
 07-6 for each additional interval to be separately produced, showing the additional data pertinent to such interval.

For each longitudinal interval, showing the additional data pertinent to such interval. Item 22: "Sacks Cement": Attached supplemental records for this well should show the details of any multiple stage cementing and the location of the cementing tool. (See instruction for items 22 and 24 above.) Item 23: Submit a separate completion report on this form for each interval to be separately produced.
