Re: Reclassification of Well
Millard Deck Estate
State WE "BB" Well #2-E
Section 13, T21S, R35E
Eumont-Y-SR-Qn Pool

Dear Mr. DiRe:

Due to the recently submitted gas/oil ratio test for the above-referenced well, it will be reclassified to a gas well in the Eumont Pool effective September 1, 1989, and the oil allowable cancelled that date.

If for some reason you feel this test does not reflect the proper classification of the well, please submit another test for our consideration by July 24, 1989.

If the well is to be reclassified to gas, please furnish this office with an acreage dedication plat, Form C-102, outlining the acreage dedicated to the gas well classification. Since this well has never been classified as a gas well it will be necessary for you to obtain approval of an unorthodox location and non-standard proration for the gas well completion. If the transporter changes due to reclassification, please submit Form C-104, so indicating. We require that gas well gas be separately metered so please advise this office when this well has been separately metered.

If you have questions concerning the above, please contact Evelyn Downs at (505) 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
