Houston, Texas 77055

Attention Mr. C. W. Byrd

Gentlemen:

Mr. John Runyan, Geologist in this office, has made a study of the producing horizon in your Wilson State Well No. 1-Y located in Unit C of Section 19, T-21-S, R-35-E, which is presently classified as a gas well in the Osudo Morrow Gas Pool. He has concluded that the well is producing from the Strawn formation rather than the Morrow and should properly be classified as a gas well in the Wilson Strawn Oil Pool.

If you concur with this finding, please submit Form C-104 with the first three sections completed to indicate this change of pool designation, and Form C-102 outlining a 40 acre dedication for the well.

In the event that you do not concur, please contact this office and we will discuss the matter.

Yours very truly,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District 1
