Gentlemen:

Belco Petroleum Corporation requests permission and grant of allowable for a 30 day test period in lieu of potential and completion for the referenced well. Our request is for testing and production of gas from the referenced well into a Llano sales line to be connected to the well.

It is anticipated that the connection will be completed during the first week of May, 1977, and our 30 day test period would then commence on the first day of sales line flow from the well. We will advise you of that date.

Sincerely,

Lee G. Nering
Administrative Geologist
