Re: Marshall # 1, E/2 SE/4 Sec. 11  
and W/2 SW/4 Sec. 12, T-21-S,  
R-36-E, Lea County, New Mexico

Gentlemen:

We are preparing to drill our No. 1 Marshall well as a Eumont Queen gas test. The well is located 660 feet from the south and east lines of Section 11, T-21-S, R-36-E, Lea County. Our lease acreage consists of the E/2 SE/4 of Section 11 and W/2 SW/4 of Section 12, T-21-S, R-36-E, Lea County, and we therefore request that you approve a non-standard gas spacing unit for our well in the Eumont Queen Gas Pool consisting of this acreage. The requested non-standard unit was formerly a non-standard unit for Sun Oil Company's # 1 Marshall before it was plugged. All of the off-setting acreage is dedicated for the production of gas.

Three copies of plat showing the location of our well and our proposed spacing unit are enclosed. The proposed unit is outlined in red.

Copies of this application and plat have been sent to all offsetting operators, as follows:
