Re: Application to Downhole Commingle  
State "C" Tract 11 Well No. 11  
Hardy Blinbry and Hardy Drinkard Oil Pools  
Lea County, New Mexico

State of New Mexico  
Energy and Minerals Department  
Oil Conservation Division  
P. O. Box 2088  
Santa Fe, NM 87501

Attention: Mr. Joe D. Ramey

Gentlemen:

Approval is hereby requested to downhole commingle the State "C" Tract 11 Well No. 11, in accordance with NMOC Rule 303-C.

The subject well is located 510' FSL x 560' FEL, Sec. 2, T-21-S, R-36-E, Lea County, New Mexico. Amoco was authorized to dually complete this well in the Hardy Blinbry and Hardy Drinkard Oil Pools by Order No. R-6223, dated January 9, 1980. The Blinbry is currently artificially lifted and the Drinkard is flowing. When commingled, both zones will be produced by artificial lift. We feel commingling both oil zones and producing through a single tubing string will enhance the economic operation of this well. Reference Administrative Order No. DHC-397 dated March 23, 1983. This order gives approval to downhole commingle the Hardy Blinbry and Hardy Drinkard production in our State "C" Tract 11 Well No. 9.

In support of our request, we submit the following facts:

1. The latest productivity tests are as follows:

	Date	BOPD	BWPD	MCFD	Perforations
*Blinbry	5-01-83	23	19	169	5800'-6178'
**Drinkard	4-06-83	0	0	167	6719'-6832'
