

MULTI-POINT SURFACE USE AND OPERATIONS PLAN

HAT MESA # 1  
660' FWL, 660' FNL

Sec. 10, T-21S, R-32E

Lea County, New Mexico

This plan is submitted with the Application for Permit to Drill the above described well. The purpose of the plan is to describe the location of the proposed well, the proposed construction, activities, and operations plan, the magnitude of necessary surface disturbance involved, and the procedures to rehabilitate the surface after completion of operations so that an appraisal can be made on environmental effects.

1. Existing roads including location of exit from main highway From Highway 62-180 turn southeast onto Highway 176. Go approximately 5 miles and turn right on existing caliche road. Go 2 miles south and  $\frac{1}{2}$  mile west and  $\frac{1}{2}$  mile north to well site. See exhibit "A".
2. Planned access road Exhibit "A" & "B" shows planned access road. The road will be 12' wide by approximately 1400' long. There will be one turnout. The road & pad will be constructed of watered & compacted caliche.
3. Location of existing wells Exhibit "A" shows surrounding existing wells.
4. Location of tank battery and flow lines Production facilities will be located on the well pad if the well is productive.
