Re: Application for Multiple Completion
McQuatters Well No. 5
Lea County, New Mexico

The State of New Mexico
Energy and Mineral Department
Oil Conservation Division
P. O. Box 2088
Santa Fe, NM 87501

Gentlemen:

Amoco Production Company requests administrative approval for a dual completion of our McQuatters Well No. 5. The subject well is located 660' FNL & 330' FWL, Section 12, T-21-S, R-36-E, Lea County, New Mexico. The dual completion will be made in the Hardy Blinebry (Upper Zone) as an oil well and in the Hardy Drinkard (Lower Zone) as an oil well. This will be an oil-oil dual completion and will be produced through parallel strings of tubing. Logs of the subject well will be submitted pursuant to rule 112-A.

Our State "C" Tract 11 Well No. 11 was dual completed in the Hardy Blinebry and Hardy Drinkard pools, and was approved by Order No. R-6223 effective May 1, 1980. Our McQuatters Well No. 4 is currently pending approval as a dual completion in the Hardy Blinebry and Hardy Drinkard pools.

We have notified the offset operators, by certified mail, requesting their consent for this multiple completion. Enclosed is a diagrammatic sketch of the multiple completion, a plat, and certified mail receipts showing that offset operators have been notified.

Yours very truly,

Original Signed by:
S. J. OKERSON
