17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (On only state all relevant details, and give pertinent dates, including estimated date of starting any proposed work. If it is the seasonally drilled, give subsurface locations and measured and true vertical depths for all markers and other pertinent to this work.)*

This well was P₁ Ald on November 7/1981. A waterflow has been discovered at the surface coming up the surface casing. We propose to drill out the surface plug, join hole and tag the cement plug at the casing shoe, set a CIBP, and spot a 35sx cement plug on the BP, and set a 15sx surface plug.
