Chevron USA Inc. R.R.Bell NCT-C Com #5-E 15-21-36 has an acreage factor of 2.00 but it shows up in the proration schedule with an AF of 1.00 w/320 acres dedicated. They are currently in the O/P category and this is possibly due to the reduced allowable they have been receiving with the AF of 1.00. Please check it out. Thanks, Evelyn
