RE: GRAMA RIDGE 35 STATE #1
UNIT I, S35-T21S-R33E

Gentlemen:

The above referenced well has recently been inspected by an Oil Conservation Division (OCD) Representative, in an attempt to release the location.

The OCD inspector found that the condition of the location did not meet the minimum requirements of the OCD.

The following items need to be completed before this well can be released.

1. Cellar needs to be filled and/or levelled.
2. Rat and mouse holes need to be filled and/or levelled.
3. Clean location of all junk and equipment (barbed wire, posts, and plastic).

When all of the above items have been completed please notify Ray Smith at (505) 393-6161, so that we may proceed in releasing this well.

Very truly yours,

Jerry Sexton
