13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Gas is measured through individual test meters at the Bilbrey 28 Fed #1, Bilbrey 28A Fed #1, and Bilbrey 27 Fed #1 locations prior to compression. The compressor is located near the Bilbrey 28 Fed #1 well. The discharge line from the compressor runs south-southwest approximately 2.1 miles to junction with Transwestern gas line. The delivery point is meter #11358, and sales volumes from this meter are allocated to these wells based on test volumes. At this time Devon SFS Operating, Inc. request approval for off lease sales of gas.
