Gentlemen:

We have this date received your application for permit to drill the above-referenced well along with an application for administrative approval of the non-standard location and non-standard proration unit.

Approval of the C-101 will be withheld pending issuance of order approving the non-standard location and proration unit. However, it will be necessary for you to submit an original surveyor's plat, Form C-102, signed by a Professional Surveyor before the permit to drill can be approved.
