13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

There are numerous sands in the Delaware sequence from 5,000' to 8,000' that need to be further detailed and tested in this wellbore. The detail and log analysis work is being performed at this time. The testing of individual zones is expected to begin during the last quarter of 2000.
