Attention: Mr. William J. LeMay - Director

Gentlemen:

Chevron U.S.A. Inc. respectfully requests administrative approval to amend Order NSP-152 by reducing the 320-acre non-standard Eumont Gas Proration Unit to a 280-acre non-standard gas proration unit. The reason for the reduction is due to recently completing the H. T. Mattern (NCT-A) Well No. 5 as a Eumont Oil well. This well is located 660' FSL and 990' FWL of Unit M, Section 24, T-21-S, R-36-E, Lea County, New Mexico. At this time we are also requesting to simultaneously dedicate the H. T. Mattern (NCT-A) Well No. 2 along with the H. T. Mattern (NCT-A) Well No. 1 to the above listed 280-acre non-standard gas proration unit. The 280-acre proration unit will be formed by deleting the SW/4 SW/4 of said Section 24 from the current proration unit. In support thereof, Chevron U.S.A. Inc. states the following facts:

- 1) Order NSP-152 dated June 15, 1955, approved a 320-acre non-standard gas proration unit in the Eumont Gas Pool comprising the S/2 of Section 24, all in T-21-S, R-36-E, NMPM, Lea County, New Mexico.
- 2) That Chevrons' H. T. Mattern (NCT-A) Well No. 5 located
