Gentlemen:

Collins & Ware, Inc. requests that Phillips Petroleum Company waive any objection to the proposed unorthodox location of the above referenced well. Enclosed are plats which delineates our proposed location to be 400 ft. FWL and 1000 ft. FSL of the SW/4 of Section 13, T21S, R34E, Lea County, New Mexico.

The unorthodox location is necessitated by the presents of an overhead power line across the standard location.

If the foregoing meets with you approval, please so indicate by executing one copy of this letter in the space provided below, and return to me in the enclosed envelope. If you should have any questions concerning this matter, please contact the undersigned.

Yours very truly,

Ron J. King

CERTIFICATION FOR COLLINS & WARE, INC. SEEKING A PERMIT TO DRILL WHERE DESIGNATED DRILLING TRACT CONSISTING OF 160 SURFACE CONTIGUOUS ACRES IS LOCATED CLOSER THAN 660' TO AN OUTER BOUNDARY AS ESTABLISHED IN RULE 104 (C)(2).

I, Max Guerry, employed by Collins & Ware, Inc. certify:

1. That Collins & Ware, Inc. is the operator of

KAISER STATE 43, Wilson Yates-7R Assoc., more fully described on the Form C-101 and plat attached hereto, showing the drilling (proration or density) unit boundary.

2. That said lease or tract embraces 160 acres, and is a ~~non-standard-unit~~ or unorthodox location in that the drilling tract is located 400' from the West section line. This deviation in spacing is necessary because of the initial location (Exhibit A) being located beneath a power line in the area. Due to the location of said power line, the only alternative topographically is to move the location west (Exhibit B).

3. That this is our formal request for administrative approval of said unorthodox location.

I declare, that I am authorized to make this report, that this report was prepared by me, or under my supervision and direction, and that data and facts stated therein are true, correct, and complete, to the best of my knowledge.

RE: Kaiser State
#43-M, 13-T21S-R34E

Gentlemen:

REC We are returning the plat (Form C-102) for the well listed above. The plat needs to be signed by the Operator of the well at the Operator's Certification. See example.

REC Also when filing Form C-101 the operator shall submit a proposed blowout prevention equipment schematic. We need this to be filed for this well.

We have noted that Hal J. Rasmussen has two wells producing from the Wilson Yates SR Assoc. pool in this proration unit, #1-N & #14-L. Before an allowable can be assigned to Collins & Ware Kaiser State #43, the Rasmussen wells must remain SI in the Wilson Yates SR Assoc. Pool or they will need to be transferred to Collins & Ware.

If you have any questions, please call District I office, Hobbs NM (505) 393-6161.

Yours very truly,
