RE: NSP-1624
Eumont Gas Proration Unit
State "G" Com Lease

Dear Mr. Sexton:

ARCO Oil and Gas Company is writing to inform you that it intends to drill the State "G" Com Well #4 (located 1920' FSL and 1650' FWL of Section 5, T-21S, R-36E, Lea County, New Mexico) into the Eumont Gas Pool and produce it from an existing Eumont proration unit, which consists of the SW/4 and SW/4 SE/4 of Section 5. This proration unit was approved by Division Order NSP-1624 for the State "G" Com Well #1, which is still actively producing from the Eumont Gas Pool. The State "G" Com Well #4 is in a standard location for this proration unit.

Attached are C-102 forms identifying the State "G" Com Wells #1 and #4, and the Eumont gas proration unit. If you need further information, please call me at (915) 688-5446.

Sincerely,

A handwritten signature in black ink, reading "David K. Newell". The signature is written in a cursive, flowing style.

David K. Newell
Operations/Analytical Engineer
