

SURFACE USE PLAN
Conoco Inc.

Meyer A-1 No. 21

The following is required information concerning the possible effect which the drilling of this well may have on the environment, existing road sites, and surrounding acreage. A copy will be posted on the derrick floor so all contractors and sub-contractors will be aware of all items of this plan.

1. Existing Roads

- A. The proposed well site is 990' FSL & 660' FWL, Sec. 17, T-21S, R-36E, Lea County, New Mexico.
- B. Exhibit "A" is a portion of a New Mexico road map and Exhibit "B.1" is a lease road map showing existing roads and wells. Directions to the location are as follows:

From the junction of State highways #8 and #176 (west of Eunice) go west 1.5 miles on highway #176. Turn right .15 miles, then turn left .2 mile to location.

- C. No improvement or maintenance is anticipated for the existing roads.

2. Planned Access Roads

- A. A new 230' X 15' access road will be required as shown by the Exhibit "C.1" survey plat.
- B. No turnout will be required.
- C. No culverts, or fills will be required.
- D. No gates, cattleguards, or fences will be required.

3. Location of Existing Wells

See Exhibit "B.2" for a plat showing well locations.

4. Location of Proposed Facilities if Well is Productive

Since this is a proposed gas well, no production facilities are anticipated. A 7.5' quadrangle topo map of the area is included as Exhibit "B.1".

5. Water Supply

Brine and fresh water will be trucked in from the city of Eunice by the same route described for reaching the drilling location.
