13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Bass Enterprises Production Co., as agent for EXCO Resources, Inc. requests authorization to temporarily abandon the subject well for a period of 12 months. We will set a retrievable bridge plug above the top perforations and perform a mechanical integrity test (following proper notification to the BLM - Hobbs Office).

This well was producing approximately 10 BOPD when it was shut-in due to mechanical problems. With advances in frac technology, we are evaluating re-stimulation in an attempt to improve production and eliminate sand production. This work is estimated to cost in excess of \$150,000, so partner approval must be obtained prior to proceeding.

14. I hereby certify that the foregoing is true and correct.
