17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Work to shut off water started 8-3-67. Attempt to recover tubing below 13,560' was not successful. Approximately 1,260' of 2 3/8" tubing and Baker Model K packer remain unrecovered in 4 1/2" OD liner. As per verbal approval of 9-21-67, it is proposed to temporarily abandon Devonian perfs. 14,942-15,025' by setting cast iron bridge plug at 13,555' with cement plug from 13,555' to 13,455'. Cement plug to be placed by spotting 30 sacks cement on top of bridge plug and reversing out excess from 13,455'. Well is to be temporarily shut-in with 8.5# mud in casing and well head equipment remaining on well.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
